Jungle potion guide

Mark Quest as hard done: Novice Requirements: Easy Length: Short Start Location: Talk to Trufitus who can be found in the former search hut in Tai Bwo Wannai village on Southern Karja. Requirements: Suggested: Item: Antiposan; Food and armor if your war level jungle is unsafe for denizens. Monster: No killing required for this quest, but you need special herbs found in the forest, but you mention Jogre (level 82), harpy bug herd (level 90), jungle spider (level 124), tribesman (level 53) trufitus that he needs a special potion to feast with the gods but he needs special herbs found in the forest. These herbs are snake weeds, ardrigal, Sito foil, Volencia Moss and a purse of crooks. You can only get each herb after he asked for it and you can be given clues to your location. 1. Snake weed. This herb can be found southwest of trufitus's hut. Discover a green and yellow plant called swampy jungle weeds to find it. When you pick it up, it is a frozen herb. Clean it. Snakes take weed back to their hut. 2. Ardrigal: Go north east of the Trufitus Hut, where you'll find a peninsula with Harpie bug herds and palm trees. (You do not need to kill bugs.) Find the palms so that eventually a herb can be found. Clean it and return to Trufitus. 3. Sito Foil: Jagex has added a safe space to get this herb - a section of scorched earth in the middle of the large circular enclosure. Search for a scorched earth. You will get the Sito foil. Take it back to Trufitus and get clues to the next herb. (The location shown on the map is outside the village enclosure, south of the huts, where there are 2 fires surrounded by black land.) It's more dangerous for low levels due to brodu victims who can lay eggs for other players doing minigames. 4. Volencia Moss: It is found in the southeast of the hut. On the eastern side is a mining area with some gray cliffs. Find them to find herbs. 5. Hooligans purse: Go north of the hut for a cliff. Go east with the bluff of harpie bugs, then head back along West Beach! Basement markers. Find the rock to find a cave entrance. Keep in mind that you'll have to defend yourself against the secret level 82 Jogres in the cave! (You don't need to kill them.) Enter the cave and go down to find a fungus covered wall to the southeast of the cave - it will be marked with a red line along the wall on your minimap. Find it and clean the herb you get, then climb out and return to Trufitus. Quest Points: 1 This quest is a necessity: my arm's big adventureshilo villagetai boi wanani trizogre meat eaters don't attack the harppie bug herd unless you're ready with level 33 slayer and a lit bug lantern. If you are not properly prepared to fight them, they will do you a lot of damage in strange ways, so avoid them as much as possible.
